Nevada City Nugget

VOLUMNE IV, NUMBER 40 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA. THE COUNTY SEAT PAPER SEPTEMBER 15, 1930

NEWS OF IMPORTANCE FROM TWIN SISTER MINE

The drift on the Twin Sisters Ledge in the No. 3 tunnel, South has opened the ledge in seven feet of quartz which runs very high in sulpherets. The rock is proving to be good mill ore and with this width, will make very profitable mining.

The North Drift is also in pay ore and progressing very favorably.

The mill is being erected and will be ready to start about the middle of October. It is contemplated to install a flotation plant and possibly a ball mill between the stamp mill and the Flotation which will more than double the capacity of one mill.

A crew of fifteen men is employed at the mine. Supplies are nearly all purchased in Nevada City and we believe that the home county should receive as much benefit as possible to give.

GRAND JURY HOLDS ITS MEETING TUESDAY

Withdraws Dance Ordinance

A. Seaman called a meeting of the Nevada County Grand Jury Wednesday at the court house, which took action on the withdrawal of the rdinance submitted to the board f supervisors for passage and which provided regulation of dances held outside of municipalities in the county.

The ordinance was submitted to the board by the welfare committee of the Grand Jury and a public hearing was held at which considerable opposition to the ordinance developed from various sources. The board of supervisors never took any official action on the ordinance.

Other matters were also considered by the Grand Jury but they were held by the officers as not ready for publication at this time.

BARIUM BEING MINED IN WOLF DISTRICT

We were told Thursday that barium is being shipped from the Pine Hill claims in the Wolf District, 15 miles from Grass Valley.

In mining the barium deposits, a rare quality clay has been discovered. This may prove of great commercial value.

INCORPORATE ARTICLES FOR GOLD STAR CO.

Oscar Zapf and L. A. Zapf and W. D. Smith all of Reno, Nevada have filed the articles of incorporation of the Gold Star Mining Development Company, with the county clerk. The capital stock totals $1,500,000.

The company is operating at New Town west of Nevada City

TWO LARGE BANKING INSTITUTIONS MERGED

Saturday, September 5th the news flashed around the world that the Bank of Italy and the Bank of America of California had merged.

What an enormous pot to start boiling! The biggest banking organization on earth.

Since its inception in 1904 the Bank of Italy has figured largely in the financial and economic structure of California.

Starting without any special aplomb the bank has grown to such codlossol proportions that it makes ne dizzy to try to keep pace with its gigantic strides. By comparison the man with millions looks small and no individual in the morld could have any effect whatsoever in pitting his puny strength against such an institution. With its vast holdings and carefully planned modus operandi it will grow and grow until its invincebility will be recognized, and it will stand out as the world's greatest money power.

E. S. White of Sacramento traveling passenger agent of the Southern Pacific Company was a pleasant caller at The Nugget office Wednesday.

STATEMENT OF W. E. WRIGHT CANDIDATE FOR DISTRICT ATTORNEY

Upon my record in office and upon my record in Nevada County, I respectfully ask the citizens of Nevada County to re-elect me District Attorney at the coming general election in November.

I have been engaged in the practice of law in this County for fifteen years. Prior to my election as your District Attorney, I spent several years in studying and familiarizing myself with the problems and the needs of Nevada County and have devoted my time and my best energies, both in and out of office, to its welfare—to its roads, its mines, its agriculture, horticulture and livestock and to its other industries, actual and potential.

Since my election eight years ago, I have continued these activities with vigor and with a more complete understanding; and, as your District Attorney, I have faithfully, honestly, conscientiously and efficiently discharged my official duties. It has been my constant aim to adminster the office economically as well as competently and to save the tax payers unnecessary expense.

The District Attorneyship is an office of great responsibility. The power conferred upon this official by the statutes of California is so extensive that sound and mature judgement is required to meet the important questions that constantly confront him. Failing this, it is possible to involve the County in needless expense and litigation. I have at all times consulted and worked harmoniously with every County official, always striving to promote peace, justice, safety and the general welfare of the County.

Criminal prosecutions, while spectacular in their conduct and at times apt to loom large in the public eye, are only a part of the many duties of the office, most of which are exacting and important; and, while the civil activities of the District Attorney are often void of public interest, they are vitally important, nevertheless, to the public welfare. My years of experience ought to be of value to the residents and citizens of the County.

Before election day I shall acquaint my fellow citizens with more facts as to my activities in the County and as to the manner in which I have discharged my official duties.

Although not a native of California, I am a native of the West, and California has been my adopted home for thirty years. From date of birth to date, I am proud of my record as an American citizen, rancher, layman, lawyer and as District Attorney; and my character has remained unsullied by one breath of suspicion, other than by the malicious mis-statements recently circulated, completely false and unsupported by any fact or facts, and actuated alone by the desire to discredit me and for vengeance.

I stand firmly upon my record and reputation in this County, in California and in any other part of the country where I have lived; and upon that record and that reputation I depend for your support and a favorable ballot at the November election.

W. E. WRIGHT.

JUDGE NEVILLE TO SERVE SUPERIOR COURT LOS ANGELES

Henry B. Neville of Downieville, judge of the superior court of the State of California for Sierra county, stpped Thursday morning to make the acquaintance of the new publishers of The Nugget. He was enroute to Los Angeles to serve on the Superior court bench during the coming month.

MOTHER EARTH'S BIRTHDAYS

And now some great mathematician has figured that the earth is three billion years old. No wonder the poor old lady has tried to ball up her birthdays.

The United States' silver production in July totaled 3,638,000 ounces against 3,969,000 in June.—American Bureau of Metal Statistics.

Ignition Parts and Accessories at Miner's Foundry. 24tf

MINING ENGINEER FROM EASTERN SYNDICATE CHECKS ON HOGE PROPERTY

Reports Ore Bodies Now Opened Better Than Represented

Test Holes For Gravel Channel To Be Sunk Soon.

The Hoge Development Company report continued progress in their extensive developments. East and West of their main shaft, and that their astern developments are looking especially good for the opening up of another extensive ore body, that should be equally as good, or better, than the one they have opened up in the West.

During the past week a mining engineer representing an Eastern Syndicate, was here to check up the properties of the Company, and reported that he had found the ore bodies already opened up, to be better than represented, and has recommneded the erection of a 50 ton flotation mill, and the sinking of the mani shaft an additional 175 feet.

He also recommended further developments on both upper and lower levels to the North West and South East along the line of contact which is the trend of the main ore bodies.

Numerous feeders have been found that run 20 to 30 degrees South of West, that have developed good ore shoots for a distance of 30 to 50 feet off the main vein to the North West. The policy of the company will be to develope the main North West and South East vein that parallels the contact, and to only develop the feeders as long as they show up pay ore.

We understand that they are shortly going to sink test holes for the location of the gravel channel which engineers figure has only two possible openings to go through. Within this narrow confinement they feel sure that they can find the main trough of the channel, and then they can utilize their long tunnel for the working of the channel for some two miles.

The mine is well equipped and has a large acreage; this together with their present showing and a very good chance for the gravel this company should become in a short time a large producer.

Former Decision Affirmed on Appeal

Dating back to a decision handed down by Judge Raglan Tuttle in March of 1928, ruling that interests of the Banner Mines headed by A. R. Archibald in the New England Company were justified in bringing its foreclosure proceedings against the Western Mines Consolidated, is an interesting bit of mining history which has recently had another chapter added in the third district court of appeals at Sacramento.

Justice Rolfe L. Thompson has handed down an opinion recently confirming the judgement of the superior court in Nevada County. The amount involved was $55,000.

IDAHO MARYLAND VEIN YIELDS RICH GOLD ORE

The Dorsey vein in the Idaho-Maryland mine at Grass Valley has been opened from the 1900 level up to the 1500 level by a series of raises, and according to recent announcments the results have been more than satisfactory.

The ore taken from the Dorsey vein is of high average grade and in this part of the mine, ground is virgin.

The mill is operating steadily, but metallurgical changes are receiving expert attention and study.

A development of the ore body has been made for a distance of 1000 feet on the 1900 level without a back

A MARKET FOR MINING STOCKS

The following is taken from the Nevada Mining Press of September 5th.:

There is encouragement in reports that reach the Far West of the standing and prospects of the New York Mining Exchange ,which is to start its career in ten days. The personnel of its officials and standing among other exchanges is a guarantee that its business will be conducted on a high plane, yet with a liberality that is necessary to a successful mart for mining stocks. The eastern exchanges of standing have not been friendly in late years to mining and speculative enterprises have been almost entirely removed from listing; yet the greatest profits in the industry have come from the purchase of stocks of properties in the development stage. Such issues are recognized as a gamble by persons who buy them, yet many a great mine of today owes its existence to the liberal supportof the public in its embroynic stage. It is possible to project speculators against fraud and at the same time provide a market for mining stocks. The great evils practiced are chargeable to members of excahnges themselves and their activities can be regulated by the governing board. There is no market in the world for mining shares that surpass or equals that of New York and the country tributary to the metropolis of America.—Nevada Mining Press.

GOLD BEARING QUARTZ ON DISPLAY AT HOGANS

Arthur Hoge, son of the vice president of the Hoge Development Company, brought in some interesting samples of gold bearing quartz Tuesday which is on display at Hogan's Shoe Store.

One of the specimens is of exceptional high grade and will mill at $300.00 per ton.

This specimen was taken from the stope.

The quartz is being shipped to Selby Retorting Works.

NEW MINING EXCHANGE TO REVIVE MINE INDUSTRY

That the new mining exchange in New York, which held its first meeting September 10, will shortly create an active market for mining stocks in the east and will be of great benefit to the industry is the opinion expressed by R. J. Jefferson, president of the Copperfield Mining Co., who is in Reno from the New York office of the company for an extended stay.

The new exchange will start business with one hundred members and every member is a broker of high standing, all the undesirable applicants having been weeded out by the governing board. Officials of the exchange, Heber C. Hicks, president, a western man, George A. Washington, vice president and Harry Thayer, formerly of Butte ,Montana, secretary and treasurer are men of high standing.

Quarters for the exchange are at 80 Wall street and have all the equipment and arrangements of a first class exchange. Seventy-four stocks of established merit have been accepted for listing and will be called daily. All seasoned mining stocks listed on other exchanges will be given a complimentary call.

The exchange will have a private wire through to the Pacific Coast which will serve trading centers on the route. Provision has been made for five hundred associate memberships and these members will receive daily quotations by wire and enjoy privileges of the exchange except that of trading on the floor. Associate members trading through member brokers will be accorded half the regular commission rates. Arrangements have been made with leading newspapers to publish the quotations and reciprocal relations have been established with other mining stock exchanges throughout the country.

Trading on the New York Mining Exchange will bring mining back, Jefferson declared.—Nevada Mining Press.

MINE TAX POLICIES TO AID OR HINDER

A single mine in one of the western states has an assessed valuation of over $92,000,000. This is equivalent to the valuation of 18 of the state's 29 counties and represents 79 per cent of the total valuation of the two largest counties.

Twenty-five years ago this property contributed almost nothing to state revennes. Now it is one of the largest taxpayers. It furnishes employment at good wages for thousands of workers and their families and, directly and indirectly, purchases the products and services of every other business within the state

This example is indicative of the importance of mining to the west. The prosperity of many states is debendent in a large measure on the future mine tax policies adopted.

LABOR AID NAMED

Fred L.Arbogast, former Nevada City attorney, has been appointed by the department of labor at Washington as superintendent of the farm labor division of the United States Employment Service. His offices will be located in the Blake Building in Oakland.

He will endeavor to issist both the farmer and the un-employed in their labor problems.

LOCATION NOTICES—Quartz and placer location notices for sale at The Nugget office at 5c each.

G. W. ERWAY REPORTS OUTLOOK GOOD ON CLAIMS

G. W. Erway, owner of the Risk Mining claims situated at North Columbia about 20 miles north east of here, reports the outlook very good at the mine which he is now engaged in developing. He is down a little over 40 feet following a 36 inch ledge of sulphide cilicate with a well defined footwall. The ledge has every appearanve of being permanent.

Mr. Erway already interested mining men of Vallejo in this venture which may lead to faster development in the very near future.

BOUNDARY MINES SUE FOR POSSESSION

The Boundary Mines in the Grass Valley district is at present involved in a civil suit called in the superior court of Nevada County Thursday under Boundry Mines vs. Joseph Slye. The trial is set for November 10.

The Boundary Mines covers an area comprising 73 acres, and was originally developed and promoted by M. J. Brock later, being leased by Joseph Slye.

About May 1st last year a valuable strike of jewelry rock was made at the 350 level of this mine, when ore was uncovered which was roughly valued at $20,000 as recorded in the press at that time. One large chunk of quartz encrusted with clusters of virgin gold and valued at $2,000 was at that time on display, some of the ore being placed for a time in The Nugget office.

The strike made a very decided sensation in mining circles over the country.

JUDICIOUS INQUIRIES MIGHT HELP

With all the liberality of President Hoover in appointing fact-finding commisions, I wonder that he has not appointed a few to get some of the data relative to the metal industry. There are innumerable possibilities.

How about a commission to inquire into the justice of importing into this country and making it a dumping ground for silver produced by convict or peon labor in other countries and thereby virtually ruining silver mining?

Another might be invited to spend a delightful vacation in California to asctrtain whether mining is more important than fishing and see whether it is advisable to require mining to stop because it muddies up certain California fishing streams.

And still another might rtport on the feasibility of inviting capital to participate in gold mining and we might have a companion commission to the farm relief board in a mine relief board.—The Mining Journal.

YUBA PASS CLOSING ON SEPTEMBER DATES

Construction work on the Ladies Canyon-Shady Flat project of the Yuba Pass highway between Downieville and Sierra City is progressing satisfactory under the closing dates as specified by the contractor.

The absolute closing days still remaining are:

From 7:00 a. m. September 15th to 7:00 a. m. September 20th.

From 7:00 a. m. September 22nd to 7:00 a. m. September 27th.

Practically during the entire time since construction work started the road has been closed between the hours of 5:00 p. m. and 7:00 a. m. each day except Saturday and Sunday. On these two days it is open to travel during the entire 48 hours.

At the point where the contractor started work the new road was immediately below the old road and the latter will have to be torn out in order to recontruct the new highway and traffic will be entirely interrupted.

Work is progressing rapidly and the road will be completed before fall rains interfere.

An Ad. in The Nugget will start the dollars rolling your way.

SOPHOMORE REPORT

The Sophomore Class was called together on Thursday, the 4th of September, by its former president, Bob Tucker. Bob was very popular among his classmantes, and proved to be a successful president. We, the class of '33 do heartily thank Bob for his untiring efforts as the president who carried us through our Freshman year.

Under Bob's management the class was brought to order and we elected the following students to fill the class offices for this year: Frank Coates, president; Norma Keesler, vice president; Bill Sharp, secretary; and Bob Tucker, treasurer.

Frank Coates is a new student in our class and is the son of our new principal. As the principal's son, he should prove to be a good president and we all wish him the best of success.

Norma Kessler is well known in our school and is capable of fulfilling her office.

Bill Sharp is also expreienced in the school and is a good natured, likable boy. The class can depend upon Bill for doing his duty.

Last but not least is Bob Tucker, whom we could not get along without. Our office chairs seemed to be lacking something without Bob, so we gave him the pleasure of remaining in office as our treasurer.

INITIATION

On Wednesday, September 3rd, a committee was called by the Senior Class President, Calvin Fisher, for the purpose of organizing the Senior Calendar. The dates of the Senior Farce, Senior Ball, the publication of the "Quill", and other such activities were set. The committee consisted of the following Seniors: Gertrude Marriott, Carl Murchie, Tom Hogan, Alton Davis and Deynes Foley.

SENIOR CALENDAR PLAN

On Friday night, September 12th, the lowly Freshmen were formally initiated into the high school by the dignified Seniors. The initiation was divided into two parts: first, an informal performance by the Freshmen, and second a formal performance by the Seniors. In the informal act, the various Freshmen were called on to perform their duty to become full-fledged members of the high school, and in the formal performance, the Seniors reigned supreme in their "Spirit of the Pioneers" idea. After the initiation was completed a dance was held in the school gym in honor of the Freshmen. Altogether, the Initiation was a huge success, and the Seniors were highly complimented for their good work and clever ideas. The committee in charge of the intitiation was as follows: Cecelia Genasci, Bernice Coughlan, Alton Davies, Carl Hieronimus, Tom Hogan, Deynes Foley and the class president Calvin Fisher.

FRESHMAN APPEARANCE

The freshmen presented a very comical appearance last week, as the Seniors put them through the various punishments of initiation. They had a curtain mode of dress, very distasteful to them, judging from the sly remarks passed behind the Seniors' backs. Their faces were artistically decorated with sundry expressions and signals. They quakingly waited for Friday afternoon and nite; in fact all the students and faculty did. The freshmen were initiated into high school life with a final grand ceremony very interest-

friends and parents

MY VACATION IN EUROPE

This summer, I had the pleasure of taking a trip which included the principal cities of the United States and eleven countries of Europe. The countless thousands of interesting things which we saw and thenumerous incidents which we encountered would fill a good-sized book, if such were written.

Historial beautiful, quaint, extravagant, inviting impressing and fascinating might be included in the list of adjectives which could describe the various cities and countries. It was not a very difficult thing to travel throughout these countries, because many persons are found everywhere who know something about our language. Many times people would talk to us for a great length of time, for practice, and by engaging in such conversation we learned many things which would have otherwise never been added to our knowledge.

We found the people we call courteous, friendly, and quite thoughtful most of the time. We come into contact with train, omnibus, and tramway conductors who were extremely courteous and were willing to stand the strain of explaining directions by the sign language. The American is impressed by such reception and wishes that our type of organization were not so fast and forgetful of good manners, especially on public conveyances in the large cities.

I kept a complete record of our trips and the things which we saw. Soon, I will give several talks before the Student Body about them. Traveling is a very good type of education in itself, and I hope that the imparting of my experience will be interesting to the extreme.

C. E. Pedersen

FRESHMEN MEETING

On Thursday, September 4th , the Freshman Class held a meeting for the purpose of organizing their class Mr. Pedersen was chosen class adviser, and the following officers were elected: Ralph Pierce, president; Dorothy Foote, vice president; and Norman Foote, secretary-treasurer. As there was no further business to come before the class, the meeting was adjourned.

THE JUNIOR CLASS

The Junior Class had a meeting Thursday, September 4, 1930 and elected Miss Virginia Morris as their class advisor. The class officers are as follows: Caswell Fisher, president; Jim Davis, vice-president; Zoe Tredennick, secretary; Barbara McMinn, treasurer. As the time was limited, other matters could not be discussed.

SENIOR CLASS MEETING

On Thursday, September 4th meetings were held by each class of the Nevada City High School in order that they might elect their class advisor and officers. Mr. Kjorlie was unanimously elected advisor. The former class president, Carl Murchie then took charge of the class and the following officers were elected; Calvin Fisher, president; Tom Hogan, vice president; Evelyn Granholm, secretary and Billy Jeffrey, treasurer. Calvin then took charge of the meeting, and appointed a committee to take charge of a very important matter,—the initiation of the Freshmen. Cecelia Genasci, Bernice Coughlan, Tom Hogan, Alton Davies, Carl Hieronimus and Deynes Foley were those appointed.

On the following Monday, August 6th, another meeting was held. At this meeting a class picnic was planned which was to take place on Admission Day, September 9th. The pinic however, had to be postponed because of the weather.

The Seniors are very sure that they will have a pleasant and successful term with the aid of their new officers and advisor.

GRASS VALLEY PERSONALS

Mr. and Mrs. A. L. Gill are visiting in San Francisco.

Wm. Levee of Lowell Hill was a recent visitor in Grass Valley.

Guy Williams attended the funeral of the late Paul Dungan, which was held in Oakland this week.

Mr. and Mrs. James Henwood and daughter, Helen, are spending a ten day's vacation in the bay region

Rev. Charles Washburn is attends-is attending a conference of the Episcopal ministers of the Sacramento diocese, which is being held at Napa.

Mr. and Mrs. W. R. Jefford and Mrs. Henry Snyder attended the funeral of Paul Dungan, which was Oakland.

Death Ended Argument

An awesome debate between two Basuto witch doctors recently ended sensationally at Teyateyaneng, North Basutoland. The witch doctors were arguing about their powers before a great crowd of natives, and the elder of the two stated with considerable emphasis that the other was "only a boy" and could not possibly have the powers which he himself claimed to have. He added that if he (the elder) willed that the other should die, he would die. The younger man took up the challenge and the older one pointed at him with a stick and said solemnly, "You will die." The young man then rose to his feet, staggered and fell against some barbed wire and immediately expired. The other witch doctor was placed under arrest, but was released after the post mortem examination which showed death to be due to a stricture.

Ivy Unpopular

Ivy has so long been used as a symbol of close and undying affection that it is uncomfortable to find a controversy going on as to how to kill and exterminate this "pestiferous plant." It is a beautiful thing, ivy; its leaves are exquisitely shaped; its color is satisfying. Yet we are told now to look upon it as an enemy both to buildings and trees. All the same, I know walls covered thick with ivy where I used to locate birds' nests, which I shall always regard with affection. And I have known trees smothered by ivy which were far less pleasant to look on than the creeper which deprived them of life.—Montreal Family Herald.

Lady Lawyer

"We're up against it in this case. The lady plaintiff is beautiful."

"And that ain't the worst of it."

"Heh?"

"So is her lawyer."

CHEROKEE PROSPERS

CHEROKEE, Sept. 13, (Special to The Nugget)— Cherokee is getting back to some of its former prosperity. We have one of the nicest service stations in Nevada County and it sure comes in handy for us house keepers when we have company come in unexpectedly. We can go to the store and get what we need. Mr. Whisler is always on hand to wait on us with his cheery big smile.

School started the second of September with fourteen scholars. Miss K. Brady is teacher.

Mr. and Mrs. Dukelow of San Francisco were visiting Mr. and Mrs. K. J. Phelan of Cherokee.

Mr. and Mrs. F. Puller and daughter of Los Florist who were visiting Mr. and Mrs. K. J. Phelan have returned home.

Joe Swazey was a visitor in Nevada City Friday.

Mr. and Mrs. D. Moody have returned after a honeymoon trip and have gone to house keeping at the H. Meyers home.

Mike Phelan was a visitor in Nevada City Tuesday.

Quite a number of people of Nevada City attended the charivari and were treated to cake by the bride and groom.

The Siberia mine has a number of men working and the mill is running fine.

Mr. John Curnow of Cherokee attended the State Fair in Sacramento last week.

Mrs. Geo. Murphy and daughters of San Francisco are visiting Frank Murphy of Montezuma Hill.

We didn't have much rain and we are glad of it as it would have spoiled the tomatoes. Mr. K. J. Phelan has a large crop and they are now ready for sale.

Miss E. Berry of Grass Valley who has been visiting her mother returned home Tuesday.

Miss Carmel Phelan who is attending high school in Grass Valley, was visiting her parents Sunday.

James Phelan and Frank Woods made a trip to Blairsden where they got a large truck load of mining supplies for the Siberia mine.

We wish our new manager of The Nugget good luck, but we are sorry to lose Mrs. Willoughby.

W. Walker and wife of Marysville were visitors here Sunday.

Mrs. James Phelan and mother, Mrs. T. J. Flynn, were visitors in Nevada City Monday.

WATCH YOUR SPEED AND SAVE THE CHILD

With schools open in most of the districts of California again, Frank G. Snook today instructed officials of the California Highway Patrol that strict observance of the law requiring motorists to observe a speed limit of 15 miles an hour in school zones will be required.

Patrolmen will be ordered to work in the vicinity of school houses and arrest any person who fails to drive in a careful manner past schoolhouses where children are entering or leaving.

It is unlawful for any persn under 18 years of age to drive a school bus in California. These regulations grew out of accidents in which children were killed and injured, Snook declared.

FRENCH CORRAL

FRENCH CORRAL, Sept. 13, (Special to The Nugget)—We must begin this week's "Items" with heartiest good wishes to the new management of The Nugget. We are glad to know that this splendid little newspaper is in the hands of old friends since a change must take place, and that it will be continued along the lines of the former ownship. To ex-residents it has seemed like a weekly visit to our beloved Nevada County, and they could imagine themselves home again visiting the good old mines, roaming our hillsides, and greeting old friends While The Nuget will ever remain a memorial to the late A. A. Willoughby, who was so deeply interested in the welfare of our beloved Nevada County, and our sister Sierra and the memory of him, and also his good wife, and co-worker, will ever be associated with it we greet the new owners, Mr. and Mrs. Thos. Ficon, with a glad hand, and wish them a continuation and increase of prosperity.

Right here we will acknowledge the beautiful compliment paid us in the closing letter of the late owners and we hardly feel that we were deserving so much, for we considered it a privilege to have our bit of news published, and thereby to keep the San Juan Ridge, and our dear home town, French Corral before the public. We shall be glad to continue the work with renewed effort. —Now for the "doings" of the past week.

We are glad to state that Harry Browning, who returned to his home last Friday on account of lilness, is much improved and will return to his work above Pike City soon.

Billy Kirkwood of Alleghany paid a visit to his nother this week, when he came with M. Bowden to bring the winter wood.

Mr. and Mrs. W. E. Moulton and their daughters, Frances and Louise, and Mrs. E. Sutherland visited the State Fair Friday. They report it "Wonderful!"

Mrs. Schwartz's pupils enjoyed a "melon feed" Friday. Mrs. Schwartz is as ever, thinking of some pleasure.

Mr. and Mrs. Will Wetzel of Hollywood, visited Mr. Wetzel's aunt and uncle, Mr. and Mrs. W. E. Moulton, during the week. They were enroute to Oregon.

Glenn Orr of Sacramento visited friends, Saturday and Sunday.

Frank O'Connor of Birchville spent a week in Sacramento, to take in the State Fair.

The regular meeting of the S. J. R. W. A. was held Sunday. There was a good attendance and the members are making plans to have a Camp Stew and dance, September 28th. on the grounds near Sweetland schoolhouse. We hope this event will be well attended.

Mr. and Mrs. Julius Pauly and their sons, Vernon and Lloyd, called on friends in French Corral Sunday. Mr. Pauly drives stage from La Porte to Marysville, to which latter place they were enroute to place their sons in high school. Mr. Pauly's parents were old time residents of our state, and many years ago kept the toll house at Nelson's Point, a place now almost forgotten.

Mr. and Mrs. L. Franciscovitch, Mr. and Mrs. Geo. Fisher and Kenneth Jurvis were Sunday visitors.

Mr. and Mrs. Vivian and their fur children of Oroville have taken up their residence in French Corral. This means an increase of two pupils for our school.

Chas. Cline of Sacramento had business here Sunday.

Mr. and Mrs. J. W. Culver visited friends in Tyler Sunday.

—0—

JAPAN BANS DAMAGE SUITS IN ACCIDENTS AT CROSSINGS

While American railroads continue the expenditure of millions of dollars annually on safety devices and educational work to prevent grade crossing accidents, the supreme court of Japan has approached a solution of the problem from an altogether different angle, according to word received by J. E. Newman, claims attorney for the Southern Pacific Company.

"In the future," it is reported in a recent issue of the Japan Advertiser, published in Tokio, "the motorist who races trains to crossings will do so at his own risk. His heirs will have no claim on any railway company, public or private, if his temerity sends him on a journey he had not expected to take so immediately.

"This is rather a cruel view of tinues, "is a recognition of the fact that this is an age of speed and that the country will be benefitted more by faster train schedules than by preserving the lives of idiots who race trains to crossings.

"Thi sis rather a cruel view of the situation," said Newman in calling attention to the findings of the Japanese high tribunal, "but it will probably have the effect of cutting down grade crossing accidents materially.

"In the United States the careless motorist, if he survives a crash with a train, too often disclaims all responsibility for the accident in spite of Stop, Look and Listen warnings, wig-wags, alarm bells, crossing gates and human watchmen. More and more, railroads are being compelled to protect their interest and property by filing damage suits against autoists who drive into their trains or cause crossing accidents by failing to observe the simplest rules of caution".

SOME NEWS ON DUCK HUNTING

With the approach of the duck season, the paramount question that is in the mind of every hunter is —what is the limit?

Recently Washington authorities amended the federal law to provide that a hunter could kill 15 ducks per day, but he might have in possession 30 ducks at one time. The state law allows 25 ducks per day or 50 per week. The state law could not be changed for the coming season.

In order that the duck hunters in California might know where they stand, at a recent meeting of the Fish and Game Commission held in Los Angels, it was agreed that the state game wardens will enforce the existing state law and the federal law will be enforced by the federal am protectors. The same policy will be followed in regard to the goose limit which by the terms of the federal regulations provides that the limit shall be reduced from 8 to 4 birds per day with 8 birds being the possession limit.

This attitude on the part of the Division of the Fish and Game is in accordance with other state enforcement officers in their relation to other federal statutes.

It is possible in the patrol of the state wardens many violations of the federal statutes will be called to their attention. In such cases, it will be the policy of the Fish and Game Commission to cooperate with the federal government and any information that may be in the files of the commission will be available for the use of the federal authorities.

Although there is considerable difference of opinion as to whether it was necessary to have reduced bag limit, it should be remembered that the hunters have increased and that the breeding ground has decreased and that steps must be taken to give additional protection if duck shooting is to continue.

BRIDGE BEING BUILT FOR HENNESS PASS ROAD

A bridge built of 65 foot redwood is under construction across the Middle Fork of the Yuba River near Milton.

The old Henness Pass road of early days is the route followed and the bridge is primarially a forest service bridge, the road having been reconstructed by them, and put in shape for use.

Tourists find the road of scenic value and are using it liberally.

CAMPTONVILLE JOTS

Mrs. B. F. McNaught and Mrs. Seymour Smith motored to Nevada City Friday on business.

J. E. Deal motored to Nevada City Friday on a business trip.

E. Z. Bowen and Charles Donnelly motored to Downieville Friday.

Joe Locey of Dobbins spent Saturday here visiting his sister, Mrs. E. J. Price.

Mr. and Mrs Fred J. Joubert motored to Nevada City Saturday.

Among those from Downieville attending the dance at Sleighville House were: Mr. and Mrs. Davidson, Kenneth Latta, Norman Costa, Misses Lucille Mattinin, Lucille Fogarty.

Fred and Warren Kendall returned Saturday from a trip to McCloud

A. Berner left Friday for Benecia.

Mr. and Mrs. Julius E. Pauly motored to Sacramento Saturday to attend the State Fair.

Fred J. Joubert and wife motored to Nevada City Monday.

Rev. H. H. Buckner of Nevada City was in town Tuesday.

At last northern Yuba county has a traffic officer assigned to this territory. Inspector J. Ponta of Downieville was made inspector for Sierra county. Any offenders in this area will be summoned to the Camptonville Justice Court.

Mrs. L. F. Lorenz left a few days ago for her home at Los Angeles after a visit with her husband at the Twin Quartz mine.

Mr. and Mrs. J. E. Pauly and sons Warren, Leland and Myron motored to Marysville Sunday. Myron will remain at Marysville where he attends high school.

Mrs. Wm. Cunningham entertained a number of friends Monday eve with a demonstration dinner at the home of Misses Mary M. and Lydia O. Groves on Spring street. The following were present: Mr. and Mrs. J. E. Pauly, Mr. and Mrs. F. B. Hanson, Mr. and Mrs. S. F. Price, Mrs. Olive Groves, Miss L. Pendola, Mrs. Mary Ramm, Mr. and Mrs. A. Cleveland, Misses Mary and Lydia Groves, Wm. Groves, F. C. Kendall, Mrs. Kate H. Livingston, Mrs. M. G. Calvin, Mrs. Lutz, Mrs. F. S. Labadie, Mr. and Mrs. F. Butz, Mr. and Mrs. Wm. Cunningham, Mrs. Peter Butz.

Fred Butz had the misfortune of crushing his right foot Sunday at the Grant & Heether Saw Mill, when a large log rolled upon it. He was taken to a Grass Valley Hospital for attention. An X-ray showed no bones broken. He will return to work in a few days.

MORE BOOZE WILL BE MADE FOR MEDICINE, PLAN

Permits for manufacture of an additional 2,000,000 gallons of Bourban and rye whiskey for medicinal purposes are soon to be issued by the treasury, it was learned.

For the first time since pre-prohibition days, the treasury this year authorized manufacutre of whiskey to replenish medicinal stocks. Six distilleries in Kentucky and Pennsylvania are producing 2,000,000 gallons this year.

Decision has now been reached to manufacutre a similar quantity next year and permits are expected to be issued soon by industrial alcohol Commissioner James M. Doran to the same distilleries reopened this year.

The United States annually consumes about 1,500,000 gallons of medicinal whiskey. Manufacture of 2,000,000 gallons is necessary however, to allow for evaporation and barrel soakage during the four-year aging period required by law.

DEER DEPREDATION SURVEY PROVES EXTENSIVE DAMAGE

The statewide survey being cunducted by the California Farm Bureau Federation on the extent of deer and other wild agme damage to trees, vines and growing farm crops indicated a very heavy damage to agriculture in counties bordering on our natural game areas.

The survey is being conducted thru the county Farm Bureau organizations and information is being received daily proving actual financial farm loss in Mendocino, Solano, Napa, Santa Cruz, Los Angeles, El Dorado, Shasta, Marin, Monterery and Tular counties. These reports cover damage to lettuce, alfalfa, vines, fruit trees, fruit buds, bulbs and many other important farm crops.

Since the beginning of this damage survey by the Farm Bureau, other state organizations have become interested in the investigation from the sportsmen's angle, and included similar surveys in their annual programs. The State Fish and Game Commission is also making a special study of this statewide farm problem.

FIRST RAINFALL OF SEASON APPEARED WEDNESDAY MORN

The slight rain Wednesday morning washed the foliage and left the face of Nature in this lovely section of country, dolled up to meet the approval of the mst fastidious.

Brilliant greens in various shades an occasional splash of yellow among the maples and a dash of red in the vines already promises something grand a little later when the frost touches chilly fingers here and there.

The paved roads and city pavements were quite well washed and a cool tang in the air caused many to don top coats and rubbers.

I NEVER WAS LOST, BUT—!

If you are thinking of a fishing or hunting trip, or a trek into the higher Sierras just to stand on top of the world, a good thing to do for a few minutes is to sit down and think —"What if I should get lost and what would I need if I did get lost, and what should I do first?

The answer is this— You might get lost and if you do, don't get scared. When the knowledge comes to you that you have lost your bearings—you are out of shouting distance, all sense of direction has left you—silence peculiar to the forest is all about you—night is approaching and an impulse to hurry some place urges you to action—don't act. Remain in one spot and make a few mental calculations. The sun is in the west and the general direction of your home could be calculated. Your home is not toward the top of the mountain so do not climb up, the down climb means water and human beings if you continue downward persistently. If you find a stream follow it down, not up. Don't run, walk and conserve yur strength, best of all if night is rapidly approaching, make camp. If you are with a party they will be scouting and shouting, and in continuing your travels you might widen the distance between you and supper instead of lessening it. To wait is better.

In your kit you will have cached away a box of matches, a stout knife, and a few concentrated eats. Clear a wide space of leaves and twigs dig a hole and make a small fire which you know is under your control. This will not only keep you warm, but will serve to keep prowling animals at a distance. With morning will come a new determination and unless you have wandered into a vast and unknown section your chances for a luncheon with friends is fairly good.

If you wander another day—no food—no water, no sound resembling the nearness f human habitation, find a clear area with some dry brush, safely distant from the surrounding forest and start a beacon fire. Smoke or fire are equally of value as the eagle eyes of forest rangers or lookouts are ever searching the landscape for possible signs of conflagration. The signs from your fire may bring immediate help and rescue.

These simple rules apply only to adults of accountability.

We read of children who are lost and sometimes subsist for days in wild, lonely and inaccessable mountains and are so often rescued or find their own way out without assistance, after spending nights and days exposed to the elements, the prowinlg wild beasts and terrifying pangs of hunger and thirst. These are adventures that fill us with awe and amazement, and a deep sense of gratitude to the Powers that be.

———0———

RICHARD WILSON MEETS INSTANT DEATH TUESDAY

Richard Wilson, of Camptonville, was instantly killed Tuesday noon while operating an "edger" at the Grant & Heether sawmill near that city.

The accident was peculiar in a measure, as the impact behind the ear from a piece of wood thrown violently back after cutting was responsible for Mr. Wilson's death.

An inquest was held in Marysville. Mr. Wilson is survived by his mother and two sisters in Ukiah, a cousin, Eugene Curtis, resides at Marysville, and J. G. Curtis, former principal of the Grass Valley high school is also a cousin.

He left many friends in and about Camptonville where he has been employed for two years.

LEGAL NOTICE

SHERIFF'S SALE
No. 5842

In the Superior Court of the State of California, in and for the County of Nevada.

L. M. DAY, Plaintiff, vs
W. D. HILL and PARNALL GOLD MINES, INC., a Corporation, Defendants.

By virtue of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein L. M. Day is Plaintiff and W. D. Hill and Parnall Gold Mines, Inc., a Corporation are Defendants, upon a Judgment rendered on the 5th day of September, 1930, for the sum of Five Hundred and Fifty Dollars ($550.00) with interest thereon at the rate of seven per cent, per annum till paid, from the date of said judgment, together with Two Hundrd and Forty-Six Dollars and Five Cents ($246.05) costs and disbursements at the date of said judgment and accruing costs of $1, I have levied upon all right, title, claim, interest of W. D. Hill and Parnall Gold Mines, Inc., a Corporation, said defendants, in and to the following described real property.

All that certain lot, piece or parcel of land situate, lying and being in the County of Nevada, State of California, and bounded and described as follows, to-wit:

All and singular that certain quartz mining claim situate in the Badger Hill Mining District, County of Nevada, State of California in Section thirty-six (36), Township eighteen (18) north, range eight (8) east, Mt. D. B. & M., known as the "Blue Rock Quartz Mining Claim" saving and excepting therefrom a small triangular portion of the west end and a small triangular portion of the southeast corner of said claim covered by patented land;

Together with all the dips, spurs and angles, and also all the metals, ores ,gold and silver bearing quartz, rock and earth therein and also all the rights, privileges and franchises thereto incident, appendant and appurtenant, or therewith usually had and enjoyed; and also all and singular the tenements, hereditaments and appurtenances therunto belonging or anywis appertaining.

Also, all and singular that certain quartz mining claim known as the White Rock Quartz Mining Claim" situated in the Badger Hill Mining District, Nevada County, State of California, as per notice recorded on the 27th day of January, 1917, at 10 minutes past 11 o'clock A. M. in Book 27 of Mining Claims at page 18 thereof of the records of said Nevada County: Together with all the dips, spurs and angles, and also all the metals, ores, gold and silver bearing quartz, rock and earth therein, and all the rights privileges and franchises thereto incident, appendant and appurtenant or therewith usually had and enjoyed; and all and singular the tenements, heredidments and appurtenances therunto belonging or in anywise appertaining and the rents, issues and profits thereof; and also all the estate, right, title, interest and claim of the said parties of the first part, of, in or to said premises ,and in every part and parcel thereof, with the appurtenances;

Also, all the right, title and interest of the parties of the first part in and to the quartz veins and other mineral lying beneath the surface of that portion of Tom Boy Quartz Mining Claim, unpatented, situated in Badger Hill Mining District, Nevada County, California, lying between the Blue Rock Quartz Mining claim, unpatented, and the Surprise Quartz Mining Claim, unpatented, situated in the west half of the northeast quarter of Section Thirty-Six (36), Township eighteen (18) North, Range eight (8), East, M. D. M. together with those portions of all of the Tom Boy Quartz veins or lodes extended, lying beneath the surface of the Surprise Quartz Mining Claim situate in said Badger Hill Mining District and contiguous to the said Tomboy Quartz Mining Claim, together with the right to enter beneath the surface of said property and extract and remove the said quartz or other mineral; excepting and reserving, however, the whole of the surface of the said Tomboy and Surprise Quartz Mining Claims, and further provided that the said party of the second part shall have no right to disturb or in any way interfere with the surface of the said property.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

Public Notice is hereby given that I will on Tuesday, September 30, 1930, at 11 o'clock A. M. of said day, in front of the Court House door in Nevada City, County of Nevada, State of California, sell at Public Auction for cash, lawful money of the United States, all the right, title, claim and interest of the above named defendants, of, in and to the above described property, or so much thereof as may be necessary to satisfy said Judgment and costs, etc., to the highest and best bidder for cash lawful money of the United States.

Dated this 6th day of September, 1930.

First Publication September 8, 1930.

GEO. R. CARTER,
Sheriff of Nevada County.

CALIFORNIANS PAY LESS AND ENJOY MORE THAN ANY OTHER STATE

Results of a nationwide economic survey announced here by the California Division of Motor Vehicles show Californians are paying less in fees for the privilege of operating motor vehicles than motorists of most of the other states and are enjoying superior advantages.

Of twenty-five states visited by Victor Killick, Statistician and research engineer of the department, in making the survey, not one had a registration fee as low as the $3 flat fee charged in California for registration of passenger vehicles.

Most of the states were found to be still employing the old horse power rating system or scheduling their fees on a weight basis. Under these systems fees were found to range from $8.80 for light vehicles to $30 and $40 for the larger and heavier types.

In one state the registration of a heavy vehicles used for commercial purposes was found to cost between $450 and $500 annually.

It was found that practically every state makes an annual charge to applicants for licenses to operate motor vehicles and some make a further charge for examination of such applicants. These fees were found to range between $1 and $2 a year, motorists of some eastern states paying a total as high as $5,000,000 for such licenses and examinations.

California applicants for operators' licenses pay no fee whatever and are examined free of charge. Although the law requires that licenses be renewed every two years there is no charge for renewal as in many states.

Killick learned that in one state motorists whose licenses are revoked may obtain a hearing before the commissioner of motor vehicles only upon payment of a fee of $5 in advance. In California every motorist is entitled to a hearing without cost

The motorist registering a motor vehicle in California for the first time receives a title certificate (pink slip) without extra charge, if he be the legal owner and if he is not the certificate is mailed to the legal owner without added cost.

Many states were found by Killick to be axacting a fee of $1 for this certificate. Fees for the transfer ownership of cars were found to be from 60 to 100 percent higher than in California.

California motorists paid an aggregate of some $10,500 000 in 1929 for registering their cars. New York motorists, however, with only a few thousand more cars, paid $38,250,000 for the same service while Pennsylvania motorists with less cars paid $29,250,000.

All the states visited by Killick employ the gasoline tax. Twenty were found to have a 4-cent tax which is one cent higher than California. Nine have a 5-cent tax and three have a 6-cent tax.

In several states it was found gasoline taxes are diverted for general administration expenses or schools and other purposes, the motorists thus being compelled as a class, to support various functions of government in addition to road construction.

The California motorist gets the full benefit of the gasoline tax inasmuch as all of it is spent on the highways.

TWO NEVADA CITY BOYS ENTER LAW PROFESSION

At a bar examination held in San Francisco a few days ago Harry Grover, and Francis Finnigan passed the examination successfully.

Mr. Grover is a native of this city and a graduate of St. Ignatius College. His study of law was carried to a successful termination of class work at a night school in San Francisco where he is employed. He passed his examinations with honor.

Francis Finnegan, is a graduate of the University of California, and also passed his examinations with honor.

Nevada City isdoubtless proud of claiming as natives of the town two such exemplary and progressive young men, and The Nugget takes pride in anouncing such news to the public.

Gauls and Romans First to Find Value of Soap

Very early in Biblical history it was found that the ashes from fires, which were then always of wood, were useful in removing grease from the hands. Ashes were thus the earliest form of soap, and they remained so for a long time.

The first of the more civilized peoples to discover how to make real soap were the Romans. They learned the secret from the Gauls, who used a preparation made from wood ashes and goat's tallow for washing their hair and beards, thus making them a fiery red—a color they considered becoming. The Romans developed the new discovery considerably, but it was many years before improved methods of soap making were introduced.

In some parts of the world soap making is even now carried out in much the same way as in Roman times.

An old cask with holes bored in one end is filled with alternate layers of straw, lime and wood ashes. The cask is then placed on a raised, slanting grooved board, and from time to time water is poured on the contents, until there emerges a brownish liquid, which is collected in an iron pot and boiled over a fire with the fat and grease until the soap maker deems it finished.

The fire is then allowed to go out and the contents of the pot is left to chill to a solid mass, after which it is cut into bars.

FLOWER SHOW AT BRAND STUDIO WEDNESDAY

FUNDS RAISED TO BENEFIT CITY LIBRARY

The Nevada City Woman's Improvement Club held its first meeting following the summer vacation, Monday evening of last week.

Mrs. R. J. Bennett, reelected president, was in charge of the meeting.

It was decided to hold two open meetings of the club in October and a tentative plan made to secure some special speakers to appear from time to time during the winter months.

Mrs. P. G. Scadden was appointed chairman of a committee to stage a flower show to be held in the Brand Studio Wednesday afternoon and evening, September 17th, and everyone who has flowers and plants either potted or for cutting is urged to bring something for display and if possible bring a container as it would be of great assistance to those in charge.

The show, it is hoped will become an annual affair, and the small admission price of 25c charged this year is to be used as a fund for the city library.

The studio will be opened for the flower show from two to five in the afternoon and seven to ten in the evening and though no prizes are offered, the display of choice and rare plants is already assured.

Tea will be served the ladies during the afternoon and a special invitation is extended to the gentlemen to attend during the evening hours.

Tit-for-Tat

Mother (at 7 o'clock in the evening)—Come, Ethel, it is bedtime. All the little birds have gone to sleep in their little nests.

Ethel (at 5 o'clock next morning)—Come, Mamma, it is time to get up. All the little birds are up, and the mamma birdie, too.—Pearson's Weekly.

Positive Proof

The Cynical One—Women age faster than men. They also lose their powers of memory first.

The Other One—Can you prove it?

The Cynical One—Yes. Just notice how many women at the age of thirty have difficulty in remembering how old they are.

Everything Provided For

"You say this vacuum cleaner takes the place of a broom?"

"Absolutely. You notice this handle? It is detachable."

"Well?"

"That's in case you want to whack your husband."

Nervous Watching

Doctor—You are suffering with your nerves. To what can you attribute it?

Patient—To fishing.

Doctor—But fishing is a very soothing occupation.

Patient—Not when you have no license.—Pages Gaies, Yverdon.

WEDDING OF Wm. E. DOOLING AND MISS ALIDA BASTIAN

In the glow of tall lighted tapers, shedding their rays on a profusion of cream and golden gladiolas, placed at the sides of the altar and throughout Mission Dolores church, Miss Alida La Verne Bastian, became the bride of Wm. Edward Dooling, at 3 o'clock on Saturday afternoon, August 30, 1930. The bridal party entered the church to the strains of Lohengrins Wedding March, played by an intimate friend of the young couple. About 200 persons witnessing the ceremony, which was performed by Father Byrne, pastor of Mission Dolores church.

The bride was attired in a beautiful golden brown chiffon velvet afternoon frock trimmed, with French ecru lace, long gloves, brown French felt hat completed the costume. The corsage boquet consisted of tube roses and begonias in cream shades and showers of lillies of the valley, tied with silver ribbon. Miss Rose Schneider was Miss Bastian's only attendant and wore a wine red velvet costume, with gloves and hat to match. Her corsage was Irish Elegance rose buds . John Dooling, brother of the groom acted as best man.

Miss Bastian is the attractive daughter of Mrs. Annie Hubbard Bastian and the late Edward J. Bastian former residents of Grass Valley, where the bride was born.

She attended the primary grades in the public schools of Nevada City, making her home with her aunt and uncle, Mrs. Nellie Clark and the late Eugene R. Clarke.

She afterwards entered the higher grades in San Francisco, graduating from the Denman school for girls, later taking a business course at Healds College. The young lady has held a position with the American Trust Co., of California in San Francisco for the past five years.

Mr. Dooling, the groom, is a prominent executive of the American Hawaiian Steamship Company, well and favorably known in shipping circles.

A reception for the bridal party and very immediate family was held in the Tapestry room of the Palace Hotel following the wedding. After many congratulations, the young couple left for a honey-moon trip through the Northern part of the state. Upon their return to San Francisco, they will occupy their new home in the Marina District.

Friends have received announcements of the wedding and wish unbounded happiness and prosperity on the sea of matrimony for the young couple.

Some wag has paused long enough to put a lot of homey truth into a bit of doggerel that is going the rounds of the press. It is hard to admit, but the truth of the matter is some men, when a bit off feed, convince themselves they are dangerously sick. On the other hand women by th thousands keep right on with their drudgery, despite the fact, they are really ill, but the bit of verse referred to, which is here printed, explains the whole situation nicely:

"When Pa is sick he's scared to death, and Ma an' us just hold our breath. He crawls in bed, an' puffs an' grunts, and does all kinds of crazy stunts; he wants the doctor, an' mighty quick, for when Pa's ill he's awful sick, an' sort o' sighs; he gasps an' groans; he talks so queer an' rolls his eyes. Ma jumps and runs an' all of us leave the house, an' peace an' joy is mighty skeerce—when Pa is sick it's something fierce.

"When Ma is sick she pegs away; she's quiet, though, not much to say; she goes right on a doin' things an' sometimes laughs er' even sings; she says she don't feel extry well—but then it's just a kind o' spell; she'll be all right tomorrow sure a good old sleep will be the cure; an' Pa he sniffs an' makes no kick, for women folks is alway sick—an' Ma, she smiles, lets on she's glad—when Ma is sick it an't s bad.

Very Scant—Undoubtedly

Doris—When my husband saw me yesterday in this new bathing suit, he went away roaring mad!

Jane—The idea of making a fuss over so little!

"No, Hardly, Hi"

Mail Clerk—This letter is too heavy. You'll have to put another stamp on it.

Hiram Hicks—That ain't goin' to make it any lighter, am it?

PROMINENT LOCAL PEOPLE TAKE TRIP TO EUROPE

Bayless Lindley and his mother, former residents of Nevada City, now of Oakland, sailed from New York September 12 for Europe. They expect to return about Christmas time. They were accompanied by Miss Alice Mosier of Grass Valley who will spend a year in Paris studying music.

REPORT CITY LIBRARIAN TO CITY TRUSTEES

The following is the complete report from the librarian:

To the Hon. Board of Trustees of Nevada City Free Library:

Gentlemen: The following report of conditions in the Nevada City Free Library for the month of August is herewith respectfully submitted.

There are 8424 volumnes in the library and of these 1218 were borrowed for home use including fiction 919; juvenile 272; and miscellaneous 27. Two books were borrowed from the State Library. Percentage of fiction 74; of juvenile 22.

There were 919 visitors to our reading rooms this month, men 188; women 151; boys 287, and girls 288; including these with our borrowers and it makes our attendance for the month 1763 or an average of 57 daily.

Eleven new names were added to our register this month, six adult and five juvenile making our present registration 825.

We purchased ten new books this month and five books were donated to the library. Fourteen books were discarded so we have made a gain of one and our present accession 8324.

Following is a list of the books which were purchased this month: "Prosperity Street", Barnsly Brook; "The Trail to Paradise," Jackson Gregory; "Tatter'd Loving," Phyllis Bottome; "The Other Half," Chas. Francis Coe; "Lone Cowboy," Will James; "French Powder Mystery", Ellery Queen; "It No One Innocent? Herbert Gropper and Edna Slerny; "Wild Wind," Temple Bailey; "Rutledge Trails the Ace of Spades," Wm. McCloud Raine; and "Years of Grace", Margaret A. Barnes.

Our gifts for this month are, "A Baker's Dozen", Mary G. Davis (Mrs. Wright); "Warwick of the Karobs," John U. Lloyd, from Richard Marriott; "The Owl's Nest E. Marbitt and "The Firm of Girdlestone", A Conan Doyle, from Mrs. Wm. H. Goede, and "Young Hunters of the Lake", Capt. Ralph Bonehill, from Richard Haddy.

Fifteen books, twelve of fiction and thirteen of non fiction, were taken from the rent shelf this month and placed in the general circulation.

Our collections for this month are fines, $4.45; lost book, 50c; rent shelf, $23.55; total $28.50.

MRS. IVA WILLIAMSON,
Librarian.
